

# Bi-Axial Rotational Moulding Machine

- Advanced designed Machine.
- Fully automatic & compact for consistent quality product.
- Sturdy & Unique mechanical design for trouble free running.
- High efficient heating chamber for the best FUEL Economy.
- All electrical/mechanical safety interlock for safe working.
- High efficient LPG/DIESEL burner for fuel economy.
- Specially design blowers to work under high temperature.
- Unique design for easy maintenance.

Model	No. of Arms		Loading of Round Mould		Power HP	Oven Size (W x H x D) m	Cooling System	Fuel	Machine Space Requirement (L x W x H) m
	straight	off-set	straight arm	off-set arm
